Resurrecting America's Promise via — Truths and their Consequences

All perspectives expressed here — are based on *Nobel Prize*-validated Human Physiology and Personal Experience.

In the workplace, computers can only replace 72% of adult Americans:

- Computers lack a Reptilian Brain + lack the ability to Nuance and have-no Sensory Receptors.
- Computer Software is *binary,* therefore is limited to replacing Human Cognitive Intelligence.
- Cognitive Intelligence is universal in Mammals.

Nobel Prize

There are 3 Conceptual Keys to the Kingdom of a Sane and Satisfying Life — *1) Psychosomatic + 2) Adaptability + 3) DIY: Ys-ly* = **Right Brain: On**

Right Brain: ON

The Right Brain of our Cerebral Cortex is ignored in elementary school > disconnected in high school > immobilized in universities > eviscerated in Grad School *= Right Brain: Off*

Expand & Protect

The U.S. Universities and their Law Schools that betray their students + their Communities + their States + the USA today, while creating an Intellectual Wasteland and Federal/State Financial *Parasite Zone* in their primary attendance area are:

#1: UPenn – Philadelphia

#2: University of Chicago – Chicago

#3: Columbia University – New York City

#4: Georgetown University – Washington DC

#5: University of Florida ++++ have also made Florida the *Honest Services Fraud* Capitol of America

#6: UC San Diego – San Diego County. UCSD is perhaps the most overrated University in America

#7–#46: TBA by their local communities

While the U.S. Trade Deficit + U.S. National Debt + U.S. Consumer Debt + Inflation continue their subsidized growth of the USA's University Matrix Prepped non-Adaptable/non-Competitive **American Workforce.**

Parasite Zones

To Tangibly, measurably resurrect America's Promise We have built a 3-rail Trail to Turn the Right Brain ON

#1: Persuade U.S. Universities and their Law Schools to support America's Promise => A government *"of the People, by the People, for the People"* that offers *equitable* Preparation and Protection for Life, Liberty and the Pursuit of Happiness.

By teaching their students that America's Promise is detailed in the Law of our Land — the *U.S. Constitution,* as-written, and as-intended to support the stated Intentions of U.S. Declaration of Independence that was based on the teachings of Jesus Christ as delineated in the Jefferson Bible. While Prepping students to productively + constructively + adaptively participate as adults, when they are adults, in the evolving U.S. Workforce during the America's Age of Automation in a super-competitive Global Economy.

#2: Provide Communities with the Analytical Tools and Skill sets to accurately evaluate their local Universities and their progeny Colleges and Public School Districts in terms of >>> are they delivering a tangible + useful + applicable ROI to attending students for their Time and the Local and State taxpayers for their Money?

#3: How-to provide a cost effective competent replacement for the existing Schooling now being offered in their Neighborhood + Community + County that will raise per capita income + Household income while creating a-great-place-to-live community.

Yes you can! **America's Promise**
