

Collaborative Cluster Table

For Virtual-Intellect Prepping (VIP) > Learning > Certifying > Top Tier Employment

The key component for Prepping for employment during the 21st Century's "Age of Automation" (2012–2072) is a Collaborative Cluster Table where students practice what we preach — DIY + Anticipate + Congregate to Collaborate.

Formalizing *Y-Gaya* "Waigaya"

A Mentored Session has an "Interlocutor" to host a Mentor and his Associate. "Interlocutor" is removed for DIY Sessions.

Collaborative Cluster's Conclusions

Welcome to a Ys-World

An Optional Use
"Build it and they will come"
BioNatSciTech Learning Center

End of TABLE

Can be In-Person or Virtually Remote, or Both.

A Collaborative Cluster Table allows all participants to see each-other's faces and observe their tics-and-tells during a collaborating discussion. The ability to see and hear fellow participants individually > collectively > simultaneously —

optimizes communication and builds comprehension that is greater than the sum of its contributions > participants begin to see "The Big Picture" and how they might fit. Learn How-to 4C to 4A to employment.

Developing 21st Century Envisionary Perspectives and Skill Sets with Validation and Certification.
