

Resurrecting the **Dynamics** of the Schooling that built America (Degrees of Competence)

We offer a Skype-Right-In Q+A discussion (1-2 hours; depends on participants); includes My-Ys-Guide (via USPS); \$120/person or \$480/ Group of 5-8.

Meet the Postulate

A Postulate is a method for "Prioritizing" options and opportunities in — Life > Employment > Relationships — by codifying the least you need to know to make a productive decision or launch a successful course of action. A Postulate answers 4 questions regarding a necessity, a situation, a circumstance in a single statement of 60 words or less: 1) What is it? 2) What does it do? 3) How does it do it? 4) Why should I care? The last question is the most important. You should not waste your time considering another person's interests/issues that do not complement your own or your neighbors'.

Functional Intelligence (drives adaptation/ingenuity/innovation)

Those with **Functional Intelligence** have the capability to accurately and concisely Define and Parse a situation, circumstance, necessity (that needs alteration/replacement/new consequences) into a series of unique, prioritized Problems that Cognitive Intelligence can solve individually with a Process.

Collaboration vs. Cooperation

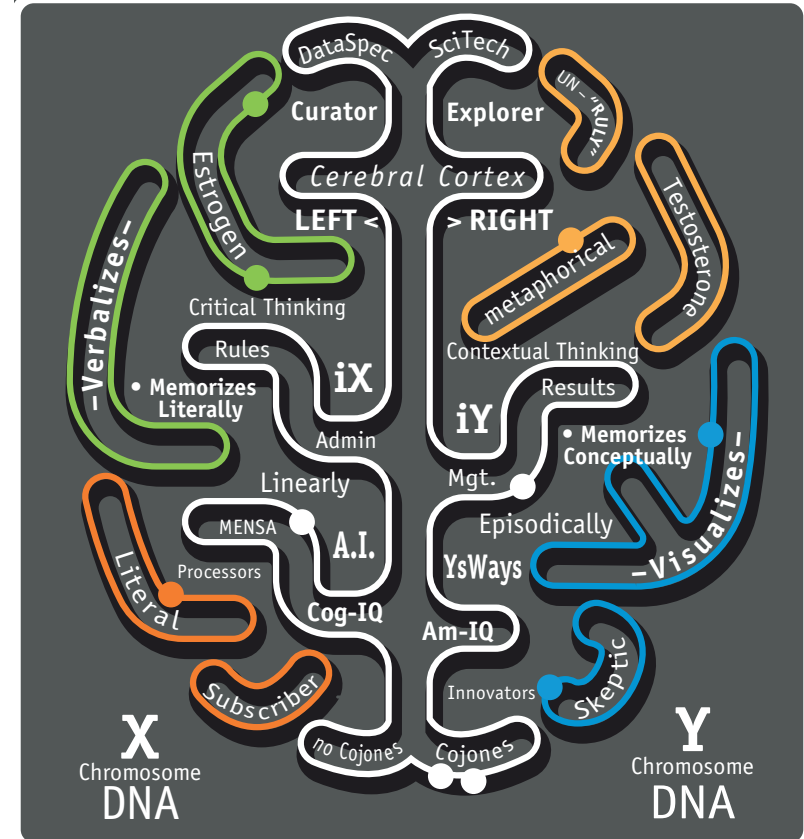

Cooperation and **Collaboration** are very different. "Cooperation" generates Mass; "Collaboration" generates "a Whole that is greater than the sum of its Parts."

Cooperation is a task/event-oriented activity that replicates processes/procedures/results = Data/Dogma-based inference.

Collaboration is a Process-oriented activity that optimizes comprehension of an activity > its probable consequences = Adaptation, Innovation, Invention and Collateral Affects.

>>>>>

The Human Species is specifically designed for **gender collaboration** by our X-or-Y chromosome DNA-built physiques.

Based on a Nobel Prize in Science, Medicine and Physiology (Roger W. Sperry, CalTech, 1981)

Opportunity Cost

Opportunity Cost: Should I do this or that or nothing? (Tell a friend; build a consensus)

Cost Benefit Analysis

Cost Benefit Analysis (CBA): Price > Value — dictates level of Incentive. (Priority; Necessity)

Critical Path

Critical Path: Action-based "Stepping Stones" that lead to a tangible, measurable resolution. (Predictable Consequences)

To Register: Go to YsUpAmerica.com, scroll down to "...Dynamics of the Schooling that Built America"; click/tap "PayPal/Buy Now" Button. We will order your My-Ys-Guide and mail it to you with a list of pending dates and times.
